

Interdisciplinary Clinical Software **SAEnCompass**

COMPUTERIZED PHYSICIAN ORDER ENTRY (CPOE)

Your facility will save valuable time and eliminate costly medication errors!

- Providers directly enter orders that include electronic signatures.
- Quickly and easily renew, change or stop existing active orders in individual or batch mode with our Review feature.
- Move smoothly between order types (Medication, Treatment, Diagnoses, Other Orders).
- Readily import a note to charting.
- View summary of an order entry session from any patient stay including: provider name; date/time; orders renewed, added, changed, or stopped; attachments.
- Authenticate phone and fax orders manually or by attaching a PDF document.
- Immediately alert staff to order changes with our desktop windows.

CPOE is only one of the great features of our **SAEnCompass** complete medical record. Call us or visit our website to find out more.
